

Steady As They Come

Although treatment tables and chairs are often hidden beneath layers of soft sheets and luxurious blankets, they are, quite literally, the foundation of all your spa's services. We've compiled some of the industry's best chair and table solutions: With a myriad of adjustable sections, plush upholstery and varying heights, these options make life easy for estheticians and massage therapists alike.

EarthLite Ellora Vista Salon Massage Table, earthlite.com

The new Ellora line features a powder-coated steel frame and a nearly silent electric lift actuator and foot control, providing therapists with easy accessibility and a broad and stable base. Several width options—28-inch, 30-inch and 32-inch—and upholstery hues ranging from sage to burgundy allow for complete customization.

Oakworks ProLuxe Series with the Adjustable Breast Comfort System, oakworks.com

Ideal for heavy-chested patients or individuals with postsurgical sensitivity, the brand's fully electric Adjustable Breast Comfort (ABC) System allows therapists to customize their client's positioning. The platform can also be raised to provide head support or assist with pectoral muscle stretches.

Silhouet-Tone Elite Platinum, silhouettone.us

Available in 15 upholstery colors, Silhouet-Tone's 110-volt Elite Platinum is a hybrid offering that can be positioned as a fully flat table or upright chair. It features a 180° rotational armrest; 16-inch, multi-position headrest; and four electrically controlled motors within the backrest, seat, height and leg sections.

ComfortSoul Lumina Elite, comfordsoul.com

This fully electric, three-section table is equipped with SmoothLock End Attachment Support and a Z-Lift System, making the multifunction unit entirely adjustable for therapists of all heights. The bed includes the company's trademarked UltraPlush Cushioning System and DuraSoft Upholstery, a thick, ergonomic padding and cushioning solution.
